01

Company Mission

Horizon Solar Energy exists to make clean energy accessible, reliable, and enduring for Filipino families, organizations, and communities. By harnessing the power of nature, we help reduce costs, strengthen resilience, and empower people to live, work, and thrive with confidence. Through trusted energy solutions, we create brighter opportunities for generations to come.

01

Company Vision

Horizon Solar Energy exists to make clean energy accessible, dependable, and transformative for Filipino families, organizations, and communities. We provide reliable solar solutions built on trust, technical excellence, and enduring partnerships, helping our customers reduce costs, strengthen resilience, and achieve greater energy independence. Committed to serving for the long term, we aim to be a trusted and lasting organization that creates meaningful impact—one home, one institution, and one community at a time.

02

Brand Platform

Future-focused without being idealistic

ENDURING

WHO WE ARE

Built for the long term, with relationships and solutions that stand the test of time

EDITORIAL TONE

Steady and thoughtful
Mature and responsible
Timeless rather than trendy
Reflective of legacy, resilience, and continuity

03

Brand Identity

LOGO

The emblem is inspired by the Möbius strip, a symbol of continuous movement, connection, and sustainability. Its flowing circular form reflects the endless cycle of solar energy: capturing sunlight, generating power, and renewing resources.

The layered bands represent innovation, scalability, and forward momentum, while the open center symbolizes clarity, possibility, and future-focused thinking.

The color transition reinforces the brand story:

- Green represents nature and environmental responsibility
- Gold symbolizes sunlight, energy, and optimism
- Silver reflects technology, infrastructure, and modern engineering

The emblem uses abstract motion and balance to express a more refined vision of clean energy leaning on modern, intelligent, and built for long-term sustainability.

Brand Identity

LOGO CLEAR ZONES

MINIMUM CLEAR SPACE

To maintain visual integrity, the logo must never appear to be linked to or crowded by other graphic elements. It must always maintain a minimum clear zone. The 'O' from HORIZON is used as a unit of measure and is the baseline reference for the mandatory clear space on all four sides of both the stacked and horizontal logo.

MINIMUM SIZE

Do not reproduce the stacked configuration logo at less than 20mm height or the horizontal configuration at less than 10mm height.

Brand Identity

BRAND LOGO COLORS

The preferred brand logo colors is in the full color of green, gray, and gold. Alternative versions allowed for reproduction or display are noted below.

Use the monotone black version for black and white applications.

All colored backgrounds must provide ample contrast to ensure legibility. Use the reverse white logo application to ensure optimum results.

Preferred full color logo version

Single color monotone version - black

Reverse white logo against image and colored background

Brand Identity

BRAND COLOR PALETTE

The brand colors serve as a powerful tool to convey our brand and serves as a critical indicator of the brand visual design system.

The color transition reinforces the brand story:

Green represents nature and environmental responsibility.

Gold | Yellow symbolizes sunlight, energy, and optimism.

Silver | Gray reflects technology, infrastructure, and modern engineering.

TYPOGRAPHY

Typography is an essential part of the brand visual system.

Manrope is the primary brand typeface used for both print and digital applications.

Switzer is used for copy and content for both print and brand applications.

In absence of these typeface options, use Helvetica or Aptos strictly for content copy or body of text only.

Content Guidelines

KEY MESSAGE DELIVERY

Varying editorial tone in message delivery must consider audience and channels distribution. Social media content and correspondences may be a little more informal than official advisories and reports.

	Email	Website	Print	Social Media	Others
Channel Mix	Relevant Concise Dynamic Organized	Integrated Informative Easy to skim Benefit-oriented	Detailed Substantiated Aspirational Integrated	Informative Dynamic Punchy Engaging	Adaptive Engaging Future-facing Credible
